Villagers resides in Thadyacha Pada gather around a dry well to fill up the water provided by the tanker at Shahapur Taluka in Thane District April 2022. Even after surrounding with large dams such as Bhatsa, Tansa and Vaitarna many villages and Tribal pada's face the water shortage in the area from past many years. Maximum number of women along with their little kids helps to pour a single bucket of water that is very hard to receive for their daily survival. Many school children can not pursue their studies properly due to this daily hectic exercise. From last few weeks, after a sudden rise in a temperature villagers worried about the situation which will become more worst.
